

INTERNATIONAL POLAR BEAR DAY
www.polarbearsinternational.org/polarbearday

ENJOY WINTER COZINESS WITH US— AND SAVE ENERGY TO HELP POLAR BEARS!

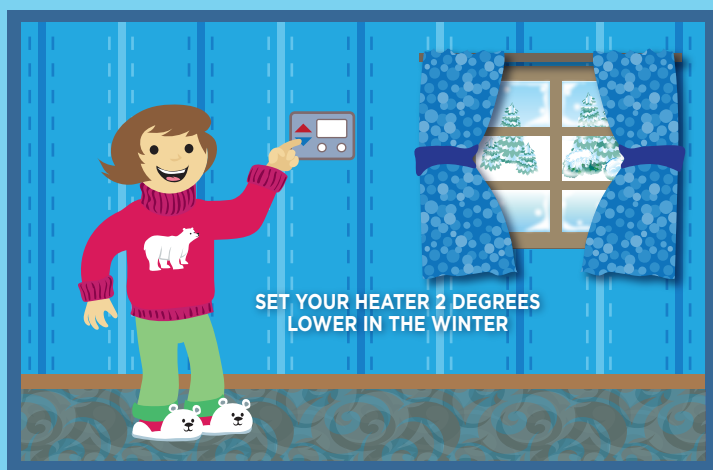

Have you noticed that many of our buildings are a bit colder today? That's because it's **INTERNATIONAL POLAR BEAR DAY**—and we're taking the Thermostat Challenge to help polar bears and the sea ice they depend on.

By turning down our thermostats, we're saving energy and showing our support for greenhouse gas reductions and action on climate change. We invite you to join us in enjoying winter coziness while helping polar bears (and people, too!).

Turn down your thermostat and put on your comfy slippers, bask in the glow of candlelight, drink hot chocolate, or bundle up for a walk outside.
